

Vadere GUI - Test

Simulation Model **Psychology** Topography Stimuli

```
1 {  
2   "usePsychologyLayer" : true,  
3   "psychologyLayer" : {  
4     "perception" : "SimplePerceptionModel",  
5     "cognition" : "CooperativeCognitionModel"  
6   }  
7 }
```

The image shows a screenshot of the 'Vadere GUI - Test' application. The 'Psychology' tab is selected, displaying a JSON configuration for the psychology layer. The configuration includes the 'usePsychologyLayer' flag set to true and specific models for perception and cognition. Arrows from the 'Perception' and 'Cognition' boxes in the Psychology Layer diagram point to these respective fields in the code.
